Trim: 100/130/150/200/250

Trim

Manual cutter ideal for light cutting applications, including paper, film and light board up to a thickness of 0.8mm/1/32". Features a rotary blade which will flip up on the round bar and a light pressure strip to hold your work in position while cutting. Complete with stand and vinyl trim catch tray. Optional accessory: roll holder

Power Trim

Manual cutter with rotary blade mounted on solid steel square bar. Strong frame and solid cutting head makes the Power Trim ideal for trimming laminated medias up to 2mm/5/64". Cuts in both directions and is available in an electric version. Complete with stand and vinyl trim catch tray. Optional accessory: roll holder

Power Trim: 100/130/150/200/250

Strong Trim: 130/180/230

Strong Trim

This manual cutter will cut material up to 4.5mm/3/16" including polycarbonate. Will cut in both directions and is very resilient due to the extra heavy cutting head and square bar. Comes complete with stand and vinyl trim catch tray. Is available in an electric version. Optional accessories: roll holder and hold down bar.

Optional Trim Table

Extend your work space with a rear table, adding 914mm/36" of additional flat workspace for easy handling of large format prints. Available for all above models
